

Name : Multi-functional Flow Control Valve

Model : TMF74A

Size :

Product introduction :

Product Description:	Multi-functional Flow Control Valve (Automatic Softener Valve)
Model No.:	TM.F74A
Material:	ABS reinforced
Product Origin:	China
Brand Name:	RUNXIN
Price Terms:	FOB Shanghai / Ningbo
Payment Terms:	T/T 100% in advance
Chinese Patent No.:	ZL02220153.X ZL200420078956.5
Certification:	CE, ROHS
International Pat. No.	WO 2006/OO7772

Features:

- 1) It adopts the seal slice, scuff resistance, corrosion proof for opening and closing. Mechanical part is more reliable.
- 2) Keyboard locked function: If the keyboard has not been operated within one minute, it will be locked by itself to avoid incorrect operation.
- 3) LED colorful screen: The colorful screen welter continuously showing it is in normal service state. If the power has been cut over 3 days, the clock figure will flicker continuously to remind to reset the current time, but other parameters are kept.

- 4) No water flows out while single tank type control valve regeneration.
- 5) One valve has two kinds of running time counting: by day or by hour. By dialing a switch remarking ON and 1 on PC board to exchange. After exchange, please restart the power.
- 6) Have output signal connector: There are three output signal connectors on PC board: N/O, N/C. COM which could be connected with booster pump and solenoid valve.
- 7) Have interlock function.

Technical Parameter:

1) Control Mode: Automatic/Time Type/Down-flow Reg.
2) Suited Pressure: 0.15~0.6MPa
3) Suited Water Temperature: 5--45°C
4) Transformer Input: 100-240V/50-60Hz
5)Maximal Water Treatment Capacity: 10 m ³ /h
6) Tank Diameter for matching: 10"- 30"
7) Water Inlet/Outlet: 2"M (Male Thread)
8) Drain Outlet: 1"M (Male Thread)
9) Brine Line Connector: 1/2"M (Male Thread)
10) Riser Pipe: 1-1/2 "D-GB (50mm)
11) Base (Tank thread): 4"-8UN

Range of Application:

Household purification, softening system	Boiler softening water system
RO pre-treatment system	Swimming pool filters equipment
Ion exchange equipment	

Packing: 4SETS / CTN

Carton Dimension: 798*568*305(MM)

Product Accessories packed with valve:

Accessory Description	Qty	Accessory Description	Qty
4" Base Seal Ring (Φ104.6×Φ5.7)	1PC	1/2"Brine Tube Hose Connector	1PC
Drain Line Flow Control(5#,6# injector no washer)	1PC	Tube Bushing	1PC
Transformer (EU plug, US plug or UK plug)	1PC
